2. Tecmo Super Bowl III

Tecmo Super Bowl II—Special Edition—is a football game that simulates real NFL action. Players can experience an entire season—from the summer preseason games to the Pro Bowl. The game offers a selection of 3 different NFL season schedules and rosters (1992, 1993 or 1994) as well as the choice to play through the 3 seasons from 1992 to 1994. The built-in trade mode even allows you to change the 1994 roster and repeat the regular season games as many times as you wish. Each of the 37 players in the 28 NFL teams in the Tecmo Super Bowl II game have been given the same statistics as the real players. We invite you to indulge in this fascinating new game.

3. Main Menu

While still on the opening demo screen press the **(B)** button. The title screen will then appear. Next, press the **(A)** button to bring up the Main Menu screen. While still on the Main Menu screen, use the **Control Pad** (left/right/up/down) to make your choices from the five Main Menus. Enter your choices with the **(A)** button. Use the **(B)** button to cancel choices and return to the previous screen.

4. Preseason Games

THE PLAYERS AND STATISTICS IN TECMO SUPER BOWL II HAVE BEEN PICKED FROM ACTUAL NFC AND AFC TEAM ROSTERS. UNFORTUNATELY DUE TO PROGRAMMING AND OTHER LIMITATIONS WE COULD NOT INCLUDE ALL PLAYERS FROM ALL TEAMS. WE HAVE ENDEAVORED, HOWEVER, TO CREATE THE MOST AUTHENTIC FOOTBALL GAME POSSIBLE. IF PER CHANCE WE HAVE MISSED ONE OF YOUR FAVORITE PLAYERS PLEASE ACCEPT OUR APOLOGY.

Power off memory function

This game pak contains a back up battery for saving the results of the games played. To minimize the possibility of memory loss, avoid switching the power on and off in rapid succession.

The preseason games, you can, for example, play the 92/93 season Buffalo Bills against the 94/95 season Buffalo Bills.

Once you select the roster season, team maps appear for each conference. Select your favorite team with the  Control Pad. Press the  button to return to the team control screen. You have now selected your team, your opponent, and the game conditions — fine, rain or snow — you want using the  Pad up/down. Once selected, press the  button then start.

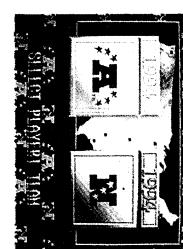

Selected References

Press the  button to return to the team control screen. Once you have chosen your team and your opponent team from the 28 NFL teams, a weather condition screen appears. Choose the weather conditions — fine, rain or snow — you want using the  Control Pad up/down. Once selected, press the  button, the game will then start.

5. Pro bowl Game

Pro bowl games are played by the teams made up of the best AFC and NFC players. You can select the all-star team line up in the preseason team data mode. See the Team Data page for details.(page 20)

Selecting "Pro Bowl" from the Main Menu brings up the Team Control screen. Once the control mode is entered, the conference select screen appears. Use the **+** Control Pad left/right to select AFC or NFC. Once you have entered your team, the Weather Conditions screen appears. The game starts as soon as the weather conditions have been selected.

6. Regular Season Options screen

Each NFL team plays 16 games over the 17-18 week season. The best teams from each division then compete against each other in the playoffs. The two best teams in the playoff games then play for the NFL title in the final Super Bowl game. The records of each team and player are stored in the game pak memory as the season progresses. Select "Season Game" on the Main Menu to bring up the regular season options screen.

Method of Trading

Use the select schedule to select the trade option. Reset the data. Set the team control mode of your team to MAN. Choose "Game Start" from the Season Menu. The first of your trade screens will then appear.

When you want to choose a player from a defense team, move the cursor to "Offense" on the offense column and press the **(A)** button. The defense team roster will then appear. To return to the offense team roster, move the cursor to "Defense" in the defense column and press the **(A)** button.

Use the **+** Control Pad to select the team member you wish to replace and press the **(A)** button. You are only able to replace one team member from each team at a time.

Once you select the player you want to replace, the naming window appears. Use the **+** Control Pad left/right to select the team of the player you want to add to your own team. Use the **+** Control Pad up/down to select the name of the team member and press the **(A)** button. The trade screen for the next team will then appear. When choosing a new member, you are only allowed to nominate team members who play the same position as the player you want to replace.

Once you have finished naming your trade requests in teams in MAN control modes, the trade results screen appears, informing you of which trades were accepted and which were not. Up to three trades may be made at the beginning of each season. Once you have made all the trade requests you want, press the **(B)** button to finish. The trade results screen will then appear. The trade results screen always appears 3 times.

Once the trading has finished the regular season menu appears.

③ Play Book

You can choose the 10 different types of play patterns for an offensive team during a game. The patterns are contained in two play books, eight in each book. Use this mode to edit the play

Select "Play Book" on the Team Data screen to bring up the play book edit screen. Use the **+** Control Pad left/right and press the **(A)** button simultaneously to choose the book you want to edit. The Play Book Replacement screen will appear. Use the **+** Control Pad to choose the pattern of play that you want to replace from the Play Book. Press the **(A)** button to bring up the Play Pattern Select screen.

2) Preseason Team Data in the Main Menu

To view or change the team data for preseason games, select the "Team Data" listed in the Main Menu.

To select year and team...

Selecting the "Team Data" listed in the Main Menu brings up the Conference Select screen. Use the **+** Control Pad left/right to select the conference. Choose the year of team data that you want to play in the preseason game by using the **+** Control Pad up/down, and press the **(A)** button to enter your selection.

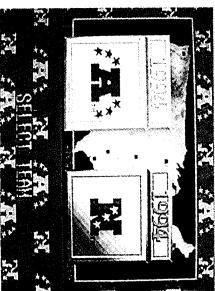

The conference team map appears. Select the team whose data or roster you want to check. The Preseason Game Team Data screen will appear. This screen enables you to check the team data or change the starting players. No statistics are saved on preseason games.

NOTE: All preseason game selections use base line team and player data. The preseason does not use accrued data from season play.

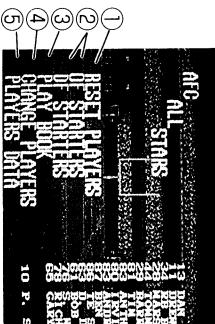

3) All-star Team Data

To view or change the team data of All-star teams, select the "Team Data" listed in the Main Menu. The Conference Select screen will then appear. Use the **+** Control Pad left/right to select the conference you want. Choose "AFC" or "NFC" by using the **+** Control Pad up/down, and press the **(A)** button to enter your selection. All-star games on the other hand do use team and player data from games played during regular season play.

8. Game Options

Game Option Switching screen

To bring up the Option Switching screen, select "Options" from the Main Menu. The Option Switching screen allows you to make various settings for three different game modes. Use the \pm Control Pad to select the options you want. The \textcircled{A} button changes the settings. Settings increase with every push of the \textcircled{A} button, and decrease with every push of the \textcircled{Y} button. The \textcircled{B} button brings back the Main Menu.

You can set various levels of difficulty for the preseason and pro bowl games.

The playing time of each quarter can be varied.

Games can be played in a non-injury mode.

Games can be played with or without the fumbling mode.

Game music can be switched on or off.

Games can be played with or without the cinema screens.

9. Starting the Games

It's time to start the action!

Select the Team Control mode after you have checked the team data and made the settings you want.

Note: always check the Schedule and the Team Control modes before starting the game if you are playing regular season games by yourself. You will not be able to play by yourself if the schedule is set to a two-player mode such as MAN vs MAN or COA vs COA.

Coin Toss

Before starting the game, the referee tosses a coin to determine which team will make the kickoff and which will return. The team that wins the toss can decide whether to kick off or return. If you win the coin toss, use the \pm Control Pad to select kickoff or return and press the \textcircled{A} button. To skip the coin toss screen, press the \textcircled{B} button.

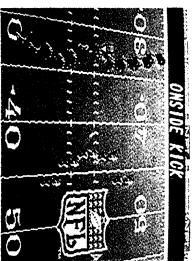

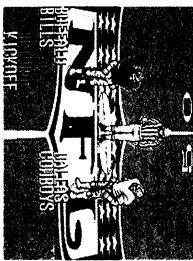

Kickoff

To kick off, press the \textcircled{A} button

A kickoff meter then appears at the bottom of the screen. The meter grows longer and then restarts. The longer the meter, the further the ball will travel at the kickoff. Watch the meter carefully and press the \textcircled{A} button when the meter has reached its longest point.

Try to keep your kicks on-side.

Try to keep your kicks on-side, so that you'll have a good chance to recover the ball and return it. You can control any of your players that manage to recover the ball.

Fair catch

To make a fair catch, press the **(B)** button while the kicked ball is still in the air.
You can take timeout by pressing start whenever play is interrupted by the whistle.

Touchback

Making a touchback in the end zone.
To make a touchback, press the **(B)** button whenever your returner catches the ball in the end zone.

Offense Control

⑥ Change
Use this mode to bring up the Offense Change screen. The Offense Change screen also appears whenever a player is injured. See page 31 for on how to change the offense team members.

Punt Kick

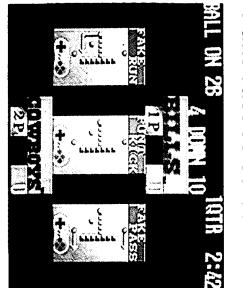

Use this mode to make a punt kick. Press the **(A)** button to bring up the Punt Tactics screen. This screen gives you the option of making a punt kick, or faking a punt kick and continuing your offensive. Select the kind of play you want according to the controller that appears on the screen with the diagram. Once you have made your selection, the screen returns to the action.

If you have chosen to punt, a kick meter will appear as soon as the center snaps the ball. The longer the meter, the further the kick will travel. Once the meter reaches a suitable length, press the **(A)** button.

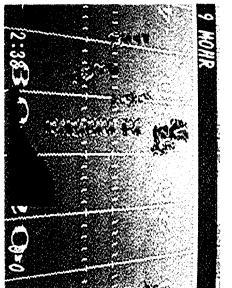

Field Goal

Select this mode to make a field goal. The Field Goal Tactics screen then appears. This screen allows you to make a field goal or continue your offensive by faking a field goal. Follow the instructions of the controller that appears with the diagram to select the type of play you want. The screen returns to the action once you have selected the play you want. If you chose to make a field goal, a "D" mark appears in front of the kicker once the center has snapped the ball. The direction of the mark determines the direction the ball will travel in. As soon as the mark faces a suitable direction, press the **(A)** button to kick the ball.

Try for Point (Extra Point)

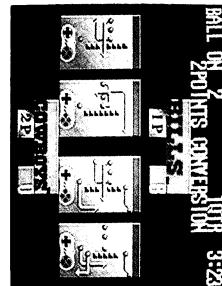

One Point Conversion

After scoring a 6-point touchdown, the game is resumed after the ball has been set for a place kick from the 2-yard line. Press the **(A)** button to have the center snap the ball and try for a one-point field goal.

Two-point Conversion

To try for a two-point conversion, press the **(X)** button after the ball has been set for a place kick. The "2 Point Conversion" will appear at the top of the screen. Press the **(A)** button to forgo the kick for a two-point conversion. A Try-for-point Tactics screen will then appear. You will not be able to go back to the kick screen after reaching the Try-for-point Tactics screen.

Select the kind of play you want according to the controller that appears on the screen with the diagram. Once you have made your selection, the screen returns to the action.

Defense Control

When the Play Book screen appears, select the Defense Formation you want according to the controller that appears on the screen with the diagram. It's a good idea to choose your defense according to the amount of space behind the defense line.

Choosing "Formation" brings up the Play Select screen.

Press the controller buttons that you think represents the play pattern the offense is likely to choose.

To block a running play

— Use the **+** Control Pad with the **(A)** button.

To block a passing play

— Use the **+** Control Pad with the **(B)** button.

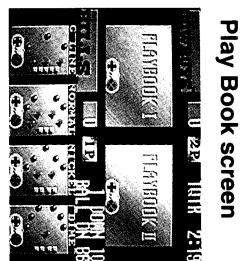

To bring up the defense window commands

— Press the **(Y)** button

— close the window with the **(B)** button.

To choose a command — use the **+** Control Pad.

To confirm a command — press the **(A)** button.

Defense window

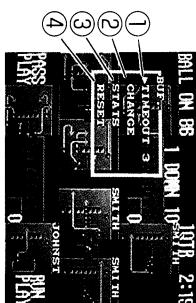

① **Timeout**
Use this mode to take timeout. You may take three timeouts in each half.

④ Formation Finder

If you change the formation on this screen, you may change the formation as shown in ⑤, "Position Finder". The line up then changes to the new formation.

⑤ Position Finder

The players are shown in formation with the positions and jersey numbers highlighted.

- ⑥ Names of player entered in game
- ⑦ Names of players on sideline.

The injured players names are shown in red. Injured players cannot enter games.

Press the **+** Control Pad right to substitute members of the return team. The screen will then slide along to the Return Team window.

- ⑧ Names of the kickoff and punt returners
- ⑨ Names of players able to be substituted with kickoff or punt returners

Player Substitutions

Use the **+** Control Pad to select the players you want to substitute in the "Players" ("Starters") and "Returners" columns; then press the **A** button. A "**>**" mark will then appear in the "Team Area" column — "Return Team" column in the case of returners. Move the marker to the players you want to enter in the game and press the **A** button. The players will then be substituted with each other.

Use the **Y** button to view the personal data of the players you selected. The positions of the players marked by the cursor in the players column flash.

Player Substitutions

There are limitations on substitutions depending on the position of a player.

Position	Position available for substitution
QB	→ QB only
RB, WR, TE	→ RB, WR, TE
DL	→ DL
LB	→ LB
DB	→ DB
KR, PR	→ Restricted players - players listed in "return team" column

*QB= quarterback, RB= running back, WR= wide receiver,

TE= tight end, KR= kick off returner, PR= punt returner, T= tackle,

G= guard, C= center, DL= defensive lineman, LB= linebacker,

DB= defensive back

When the game is interrupted by the whistle, players may be injured. Substitute for any injured players as they will not be able to enter the game again until their injury has healed. Some injuries can take an entire season to heal.

Game composition

A game is made up of the first and second quarters, followed by half time (which can be skipped by pressing the ⓧ button) and then by the third and fourth quarters.

11. The Road to the Super Bowl

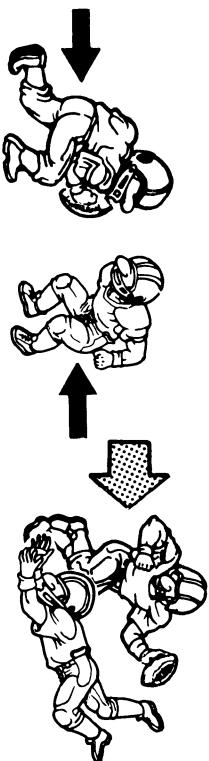

The road to Super Bowl is long and rigorous. Without outstanding technique and play strategy the Super Bowl is an unattainable goal. Keep polishing your skills and use your best play strategy to achieve victory.

TECHNIQUE SECTION

Running Plays

Avoiding a diving tackle

When the COM is about to make a diving tackle, the defensive player will get ready to dive, then he will attempt to tackle your player. To avoid being tackled get out of the way just as he is getting ready to dive.

***If the defensive player gets ready to dive, — get out of the way.**

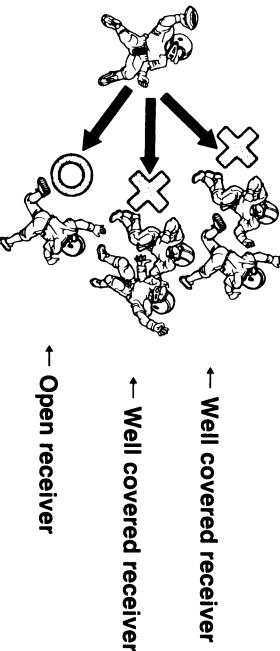

Make the most of your running back's talents

Some running backs like to use their strength to bowl over the defense and plow straight ahead, while others like to use special techniques and speed to avoid tackles. When you are controlling a powerful runner (a runner with great hitting power), have confidence in his strength and run him straight at the defense. When you are controlling a skillful running back (a runner with running speed and rushing ability), head upfield by eluding the defense's tackle attempts.

PASS PLAYS

Look for an open receiver

Don't throw a pass to a receiver who is well covered by the defense or the pass may be knocked down or intercepted. Look for an open receiver and then pass the ball to him.

STRATEGY SECTION

Make the most of your team's talents

There are many different types of teams — good passing teams, good running teams, strong defensive teams, etc. Find out what your team's strengths are and then make your play choices based on those strengths.

Take away your opponents strong points

Study your opponent to discover his strengths and weaknesses. During the game concentrate on shutting down your opponent's favorite plays and upsetting his game plan.

The success of your passes depends on the ability of your quarterback and receiver.

The greater the ability of your quarterback and receiver the easier it will be for you to complete passes. With talented players it is possible to make passes even when your players are covered. However, if your receiver is not talented, he might drop the ball even though he's wide open. Likewise, if your quarterback isn't talented, he might throw the ball so badly that your receiver can't catch it.

Use your ace receiver when it really counts

If you have an ace receiver on your team who is extremely talented, try throwing the ball to him in situations where it really counts.

Defense

Intercepting the other team's passes

Move your defenders into the area that the offensive team's pass is heading. Then, if your defenders are talented enough, they might be able to make an interception.

WEATHER SECTION

The weather condition is an important factor of the game. The weather will be determined as follows.

In preseason and pro bowl games:

You are able to choose the weather conditions. You can simulate your team-ability under snow and rain conditions, and develop a plan of tactics under any weather.

- To choose a weather condition —

After you had chosen the two teams, a weather screen will appear. Press the **+** Control Pad up or down to choose a weather condition and press the **(A)** button, the game will begin.

In the regular season game:

The weather conditions are determined by the season, by the region where the game is being held and by the probability of rain or snow. For example, a winter game, played in a wet northern area will have a high probability of snow. On the contrary a game played in a dry southern area is likely to have nice weather. To win the game under bad weather conditions, you must consider a plan of tactics for your team by playing preseason games under bad weather conditions.

* When playing in rain or snow, the player you are controlling may slip and fall.

Play patterns The five basic play patterns used in Tecmo Super Bowl II	
T-formation	Formation where the running backs line up side by side behind the quarterback, forming a "T" shape.
I-formation	Formation where two running backs are placed directly behind the quarterbacks, resembling an "I" shape
Oneset Back	Formation where running backs are placed just behind the quarterbacks.
Double Tight End (TE)	Formation where tight ends are placed on both sides of linemen. Running back can select the direction freely in this formation.
Run and Shoot	Formation where a fourth wide receiver takes the place of a tight end to enable a better passing offensive.
Shot Gun	Formation where the quarterbacks are placed 7 yards behind the center, enabling the center to make a long snap. This formation allows for better passing offensive. The lower position also gives the quarterbacks more room to maneuver. Running play can also be conducted in this formation.
